SUMMARY

Motivated Information Science and Engineering student with hands-on experience in full-stack development, IoT systems, and cybersecurity. Proficient in React.js, .NET, Python, and SQL, with strong skills in API integration and data visualization. Developed real-time applications including a cybersecurity threat detection dashboard and smart automation systems. Passionate about building secure, scalable, and data-driven solutions.

PROJECT

- **RFID and QR code based Smart shopping cart system -** Developed an IoT-enabled smart shopping cart using ESP32 with QR code scanning and RF-ID-based payment.
  Implemented system logic in C/C++ (Arduino) to automate billing and support real-time transaction and inventory monitoring through a web dashboard.

- **IP Threat Detection Dashboard** – Developed a cybersecurity dashboard to detect and analyze malicious IP addresses using real-time threat intelligence APIs.
  Integrated external APIs (AbuseIPDB, IPInfo) to classify IPs based on risk levels and visualize attack patterns.

PROFESSIONAL EXPERIENCE

- **Full Stack Development Intern – Samsung PRISM, Bengaluru** *July 2025 – Jan 2026*
  - Developed and optimized a workflow management system using React.js and .NET.
  - Integrated REST APIs to enable seamless communication between frontend and backend.
  - Collaborated with cross-functional teams to deliver scalable solutions.
- **Cyber Security & Ethical Hacking Intern – SuprMentr (NASSCOM Future Skills)** *Feb 2026 – May 2026*
  - Designed and implemented a real-time IP Threat Detection Dashboard using Flask.
  - Integrated threat intelligence APIs (AbuseIPDB, IPInfo) to analyze malicious IP activity.
  - Classified and visualized risk levels using interactive dashboards.

EDUCATION

Bachelor of Engineering – Information Science & Engineering,Cambridge Institute of Technology KR Puram.*2022-2026*

1st and 2nd PUC- Advitya PU College, Bengaluru. *2020-2022*

TECHNICAL SKILLS

- Python, SQL, C/C++
- React.js, HTML, CSS, .NET, REST APIs
- Pandas, NumPy, Power BI, Data Visualization
- Power BI,Data Visualization
- IP Threat Detection, Network Security, Ethical Hacking Basics.
- IoT (ESP32), Dashboard DevelopmentPython, SQL, Pandas, NumPy

CERTIFICATIONS

- Java foundation, Infosys
- Fundamental of Machine learning, Microsoft
- Introduction to MEAN Stack, Simple learn
- Introduction to python.

LANGUAGES

English, Kannada ,Telugu, Hindi.
